A Timed Stop is a stop that shows scheduled times for services specific to that stop. Approximately 1 in 6 stops are Timed Stops. These are shown on the route maps and are represented as the stops shown on the timetable.

tip

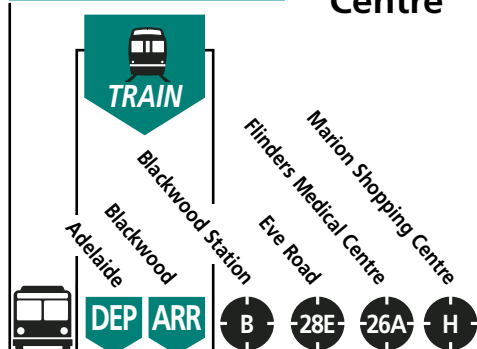

If your stop is not a Timed Stop, an approximate measure that can be a useful guide is to allow for around 1 minute for each stop, between your stop and the previous or next Timed Stop.

This information is a true and accurate guide to times and services described at the time of publication. However, the Adelaide Metro and its Service Providers reserve the right to re-route and change conditions without notice. For clarification on all issues it is recommended to call the InfoLine on 8210 1000.
